

NCotton Technical Specification Prompt (File, Sales, and Commission Modules)

This document consolidates all field-level details and user flow requirements from the 'File,' 'Sales,' and 'Commission' sub-tabs, designed to serve as a detailed prompt for screen generation. All fields are explicitly listed under their respective modules/sub-tabs.

I. File Module Requirements

The File module is used for setting up master data (Buyer, Seller, Sub-broker, Cotton Variety, Payment Terms, Bank, and Station).

1. Buyer

Sub-Tabs: General details, Contact & Bank details, Wishes, Word Format, Con.Footer, File Attachment (KYC).

Section	Field Name	Data Type/Type	Constraints/Notes
General Details (Left)	Name	Free Text	Mandatory
	Print Name	Free Text	Mandatory. Auto-replicated from Name, can be modified.
	Station	Selection	
	Office Address	Free Text	
	Delivery Address	Free Text	
	State	Selection	Mandatory
	Phone	Free Text	

Section	Field Name	Data Type/Type	Constraints/Notes
	Mobile	Free Text	
	Fax	Free Text	
	Email	Free Text	
	Website	Free Text	
	Group Name	Free Text	
General Details (Right)	Short Name	Free Text	
	Note	Free Text	
	GSTIN	Free Text	
	CST No. & Dt	Free Text	
	PAN	Free Text	
	Insurance no.	Free Text	
	Having Charity Participation	Checkbox	
Commission Details	Comm %	Numeric	
	Bale Comm.	Numeric	
Other Fields	Company	Selection	
	Status	Radio Button	Active / Deferred
Contact Details (Sub-Tab)	Name	Free Text	
	Designation	Free Text	
	Mobile	Free Text	
	Email	Free Text	Emails separated by ",".

Section	Field Name	Data Type/Type	Constraints/Notes
Bank Details (Sub-Tab)	Bank Name	Free Text	
	Branch	Free Text	
	A/C No.	Free Text	
	IFSC Code	Free Text	
Wishes Section (Sub-Tab)	Name	Free Text	
	Relationship	Free Text	
	Date	Date Picker	
	Birthday	Checkbox	
	Wedding Day	Checkbox	
Word Format (Sub-Tab)	Free text area	Free Text	
	EMail/SMS	Free Text	
Conf.Footer (Sub-Tab)	Load default value	Button	Populates text in free text area.
	Free text area	Free Text	
File Attachment (KYC) (Sub-Tab)	File Name	File Upload	
	Browse	File Upload	Uploads file from computer/phone.
	View	Field	

User Flows (Buyer):

1. Clicking "Buyer" from the File menu opens a new tab.
2. User must fill all mandatory fields (Name, Print Name, State) to successfully save the buyer; saving fails if any mandatory fields are null.

3. "New" button clears all fields in the tab.
4. "Close" button closes the tab.

2. Seller

Sub-Tabs: General Details, Contact & Bank Details, Wishes, Word Format, File Attachment (KYC).

Section	Field Name	Data Type/Type	Constraints/Notes
General Details (Left)	Name	Free Text	Mandatory
	Print Name	Free Text	
	Station	Selection/Text	
	Office Address	Free Text	
	Delivery Address	Free Text	
	State	Selection	Mandatory
General Details (Right)	Short Name	Free Text	
	Note	Free Text	
	GSTIN	Free Text	
	CST No. & Dt	Free Text	
	PAN	Free Text	
	Insurance No.	Free Text	
Commission Details	Comm %	Numeric	
	Bale Comm.	Numeric	
Status	Status	Radio Button	Active, Deferred

User Flows (Seller):

1. Clicking "Seller" from the File menu opens a new tab.
2. User must fill all mandatory fields (Name, State) to save.

3. Sub Broker

Section	Field Name	Data Type/Type	Constraints/Notes
General Details (Left)	Name	Free Text	Mandatory
	Station	Free Text	
	Address	Free Text	
	Phone	Free Text	
	Mobile	Free Text	
	Fax	Free Text	
	Email	Free Text	
	Website	Free Text	
General Details (Right)	Short Name	Free Text	
	Note	Free Text	
	TIN	Free Text	
	CST	Free Text	
	I.T	Free Text	
	Insurance No.	Free Text	

4. Cotton Variety

Section	Field Name	Data Type/Type	Constraints/Notes
Details	Cotton Variety	Free Text	Mandatory
Buttons	New, Save (F2), Close	Button Group	Standard file operations

User Flows:

1. The user clicks 'Cotton Variety' from the File menu, opening a new tab.
2. The user enters a variety name (text).
3. The user clicks **Save (F2)**, and the Cotton Variety should be saved successfully.

5. Payment Terms

Section	Field Name	Data Type/Type	Constraints/Notes
Details	Payment terms	Free Text	Mandatory
	Short name	Free Text	
	Days	Free Text	
Buttons	New, Save (F2), Close	Button Group	Standard file operations

User Flows:

1. The user clicks 'Payment terms' from the File menu, opening a new tab.
2. The user must fill the mandatory Payment terms field.
3. The user clicks **Save (F2)**, and the Payment term should be saved successfully.
4. *Constraint:* Payment terms can only be created (write once). If a change is needed, a new payment term is created, and the old one is deferred.

6. Bank Details

Section	Field Name	Data Type/Type	Constraints/Notes
Details	Bank Name	Free Text	Mandatory
	Short name	Free Text	
Buttons	New, Save (F2), Close	Button Group	Standard file operations

User Flows:

1. The user clicks 'Bank' from the File menu, opening a new tab.
2. The user must fill the mandatory Bank Name field.
3. The user clicks **Save (F2)**, and the bank details should be saved successfully.

7. Station

Section	Field Name	Data Type/Type	Constraints/Notes
Details	Station Name	Free Text	Mandatory
Buttons	New, Save (F2), Close	Button Group	Standard file operations

User Flows:

1. The user clicks 'Station' from the File menu, opening a new tab.
2. The user must fill the mandatory Station Name field.
3. The user clicks **Save (F2)**, and the station details should be saved successfully.

II. Sales Module Requirements

The Sales module covers the core transaction workflows from confirmation to payment and adjustments. All sub-modules include detailed field specifications for screen generation.

1. Sale Confirmation

Sub-Tabs: Confirmation Details, Commission Details, Notes, File Attachments, Additional Remarks.

Section	Field Name	Data Type/Type	Constraints/Notes
Header	Conf No	Free Text	Mandatory
	Date	Dropdown Calendar	Mandatory
	Buyer	Selection	Mandatory
	Seller	Selection	Mandatory
	Station	Selection	Mandatory
	Variety	Selection	Mandatory
	Bales (Min Value)	Numeric Box	Mandatory.

Section	Field Name	Data Type/Type	Constraints/Notes
	Bales (Max Value)	Numeric Box	
Terms	Final Candy Rt	Numeric Value	Mandatory

User Flows:

- Clicking "Sale Confirmation" opens a new tab.
- The user must fill all mandatory details (Conf No, Date, Buyer, Seller, Station, Variety, Bales - Min Value, Final Candy Rt) and click save.
- Once saved, an "Edit" button appears for "Cancel Confirmation".

2. Delivery (Mill Passing)

This module allows users to track and manage the delivery of cotton.

Section	Field Name	Data Type/Type	Constraints/Notes
Header	Sales Conf No	Selection/Text	Mandatory. Auto-populates delivery details.
	Delivery Date	Date Picker	Mandatory
	Bale Quantity	Numeric	
	Weight (Gross/Tare/Net)	Numeric	Fields to record weight details.
	Status	Dropdown	Delivery status (e.g., Pending, Delivered).

Key Features and User Flows:

- **Navigation:** Users can navigate existing deliveries using header arrows.
- **Data Population:** Entering an existing Sales Confirmation Number (Conf No.) auto-populates all relevant fields.
- **Actions:** Existing deliveries can be edited, deleted, emailed, SMS'd, or printed.

3. Seller Invoice

This module handles the generation of invoices to the seller.

Section	Field Name	Data Type/Type	Constraints/Notes
Header	Sales Conf No	Selection/Text	Mandatory. Populates all confirmation details.
	Invoice No	Free Text	Mandatory. Must be unique.
	Date	Date Picker	Mandatory
Payments	Advance Payment	Numeric	Auto-reflected from payment module.
Charges	IGST	Numeric	Calculated field.
	Add/Less Val	Numeric	
	Insurance	Numeric	
	Round off	Numeric	

Key Features and User Flows:

- **Data Population:** Users must enter a valid Sales Conf No. to populate the fields.
- **Advance Payments:** Any advance payments related to the confirmation should be reflected in this invoice.
- **Uniqueness Constraint:** Invoices cannot have duplicate numbers.
- **Charges Included:** The invoice structure includes fields for calculating charges such as IGST, Add/Less Val, Insurance, and Round off.

4. Advance Payment

This section manages advance payment transactions mapped to sale confirmations.

Section	Field Name	Data Type/Type	Constraints/Notes
Header	Sale Conf No	Selection/Text	Mandatory. Payment is mapped against this confirmation.

Section	Field Name	Data Type/Type	Constraints/Notes
	Date	Date Picker	Mandatory
	Amount	Numeric	Mandatory
	Payment Mode	Dropdown	Optional text field
	Narration	Free Text	

Key Features and User Flows:

- **Mapping:** Advance Payment must be mapped directly against a specific sale confirmation.

5. Cotton Payment

This section manages final payment transactions mapped against outstanding invoices.

Section	Field Name	Data Type/Type	Constraints/Notes
Header	Buyer	Selection	Mandatory.
	Seller	Selection	Mandatory.
	Date	Date Picker	Mandatory
	Amount	Numeric	Mandatory
	Payment Mode	Dropdown	
Allotment	Pending Invoices List	Grid/Table	Displays pending invoices available for allotment against the payment.

Key Features and User Flows:

- **Mapping:** Must be mapped against the respective buyer and seller, displaying pending invoices available for allotment.

6. Credit Debit (CR/DR) Note

This module handles adjustments for shortages and other corrections.

Section	Field Name	Data Type/Type	Constraints/Notes
Header	Note No	Free Text	Unique identification number
	Date	Date Picker	Mandatory
	Buyer/Seller	Selection	Mandatory.
Details	Reason/Description	Free Text	Used for shortage adjustments.
	Amount	Numeric	Mandatory

Key Features and User Flows:

- **Function:** Used to allow for shortage adjustments.

7. Group Payment

This feature enables the processing of multiple outstanding invoices for a single buyer or seller.

Section	Field Name	Data Type/Type	Constraints/Notes
Header	Buyer	Selection	Mandatory
	Seller	Selection	Mandatory
	Date	Date Picker	Mandatory. Transaction must be within the current financial year.
Payment Details	Inst. Value	Numeric	Mandatory
	Payment Mode	Dropdown	Mandatory
	Charity	Numeric	Optional deduction.
	TDS	Numeric	Optional deduction.
	Freight	Numeric	Optional deduction.

Section	Field Name	Data Type/Type	Constraints/Notes
Invoices	Outstanding Invoices List	Grid/Table	Loaded based on Buyer/Seller filters.

User Flows:

- User selects Buyer and Seller to load unbilled balances.
- System validates that the transaction date falls within the current financial year.

8. Sales Tax Form Receipt

Section	Field Name	Data Type/Type	Constraints/Notes
Header	Form No	Free Text	Mandatory
	Form Type	Selection	Mandatory
	Buyer/Seller	Selection	Used for filtering invoices.

User Flows:

- Users load invoices based on seller/buyer filters and check the "Load" box to generate reports.

9. Cotton Opening Balance

This module tracks the initial balances for buyers and sellers at the start of a financial year.

Section	Field Name	Data Type/Type	Constraints/Notes
Header	Buyer/Seller	Selection	Mandatory.
	Financial Year	Selection	
Details	Opening Value	Numeric	

User Flows:

- Selecting a Buyer refreshes the table to show existing opening values.

10. Charity Cheque Details

Sub-Tabs: Seller Invoice List, Charity Cheque Entry.

Section	Field Name	Data Type/Type	Constraints/Notes
Sub-Tab: Invoice List	Invoices List	Grid/Table	Shows invoices with zero charity value.
Sub-Tab: Charity Cheque Entry	Bank Name	Selection/Text	Mandatory
	Cheque No	Free Text	Mandatory
	Date	Date Picker	Mandatory
	Amount	Numeric	Total amount derived from selected invoices.

User Flows:

- In the Invoice List, user selects invoices with zero charity value and clicks "Proceed".
- In Cheque Entry, payment details are filled to update the charity status of selected invoices.

11. Allowances

Section	Field Name	Data Type/Type	Constraints/Notes
Details	Allowance No	Numeric	Auto-generated; editable.
	Amount (or) %	Numeric	Updates the new rate.

12. Mill Weight Details

Allows updating weight parameters (Gross, Tare, Net) which automatically calculates the shortage.

Section	Field Name	Data Type/Type	Constraints/Notes
Header	Sales Conf No	Selection/Text	
Weight Fields	Gross Weight	Numeric	
	Tare Weight	Numeric	
	Net Weight	Numeric	Calculated: Gross - Tare.
	Shortage	Numeric	Automatically calculated.

13. GST Certification Receipt

Used to record the receipt of GST certificates against specific invoices for a financial year.

Section	Field Name	Data Type/Type	Constraints/Notes
Header	Buyer/Seller	Selection	Mandatory
	Financial Year	Selection	
Certificate Details	GST Certificate No	Free Text	
	Receipt Date	Date Picker	
Actions	Record Receipt	Button	Used to record receipt against specific invoices.

III. Commission Module Requirements

1. Commission Billing

Section	Field Name	Data Type/Type	Constraints/Notes
Header	Bill Number	Numeric/Text	Reset per financial year.
	Date	Date Picker	
	Agent/Company	Selection	Bill uses Agent's company header.
Details	Invoice List	Grid/Table	Pop-up allows loading unbilled invoices.
	Addons (GST)	Numeric	
Attachments	Scanned File Attachment	File Upload	

2. Commission Receipt

Section	Field Name	Data Type/Type	Constraints/Notes
Header	Party	Selection	Mandatory.
	Date	Date Picker	
	Payment Mode	Dropdown	CASH, DD, RTGS, etc.
Payment Details	Amount	Numeric	Mandatory.
	TDS Deduction	Numeric	
	Charity Deduction	Numeric	
Balance	Party Balance Outstanding	Numeric	Calculated field.

User Flows:

- Tracks party balance outstanding.
- Supports various payment modes (CASH, DD, RTGS, etc.).
- Calculates total amount including TDS and Charity deductions.
